Volunteer Opportunity

Promote Recycling in Cambridge ...and Raise Money for Charity- at the same time!

WHY?

Recycling is beneficial in many ways- for example, recycling conserves natural resources and creates jobs in Massachusetts. This spring the Cambridge Recycling program will be offering an additional incentive to recycle- the opportunity for selected households to support local charities by recycling! The City will award \$12.50 for every ton recycled by participating households over a 6 month period.

What you will do:

Contact selected households over the phone and/or in person to tell them about this exciting opportunity. We will provide a script and outreach materials.

When?

The project will begin the last week in April and go through the end of May. Exact dates/times are flexible. Volunteers can sign up for one or more days.

Where do I sign up?

If you are interested in volunteering please contact Jessica Nolan at (617)349-4815 or jnolan@ci.cambridge.ma.us

The City will provide training, buttons, phone access, refreshments and outreach materials. All we need is you!
